

PROJECT NAME: Metro Fire District Training Facility

RECIPIENT: Sandy City

LOCATION: Sandy, Utah

PURPOSE: The Metro Fire Agency Emergency Training Facility ("Facility") is a multi-jurisdictional project to provide the essential training for fire first responders that focuses on compliance with the National Incident Management System. Specifically, the Facility will provide training to fire departments and emergency responders from the following Utah cities: Bluffdale, Midvale, Murray, Sandy, South Jordan, South Salt Lake, West Jordan, and West Valley

The Metro Fire Agency, which is composed of 500 firefighters, provides emergency services to 420,000 citizens through twenty-five fire stations and one satellite fire station. A training facility for all of these assorted emergency personnel is urgently required. The City of Sandy has offered a parcel of land to build the training center.

The Facility will provide to prepare for, respond to, and recover from multi-jurisdictional local incidents.

AMOUNT: \$980,000
